BioVet

Stand Alone Heating Unit

Our market leading accessory portfolio is setting the standard for high performance, cost effective, and workflow enhancing solutions for academic, pharma and drug discovery, and government labs globally. Our products are developed in close collaboration with researchers, technicians, and equipment manufacturers from around the world.

What is your requirement? Our accessories are designed with your labs productivity and efficiency in mind. Careful attention is paid to workflow, pre and post experiment setup and close down, and longitudinal reproducibility of experiments over the long term.

m2m's BioVet Stand Alone Heating Unit comprehensive and fully featured system includes everything you need to get started, and then develop and extend your workflow and scanning protocols.

About Us:

Join an increasing number of researchers and manufacturers who choose our products

You are our luminary customer base! Achieve otherwise unobtainable image quality and drive your research to new levels of discovery with better products, improved workflow, and world class support. Our products are designed and manufactured to ISO quality standards.

Stand Alone Heating Unit:

- Self-Contained Warming solution
- Imaging Compatible
- CT/PET/SPECT systems
- Use in Prep/holding Areas
- Can Also be Battery-operated for portable use
